

VC UHS Affiliate Synergy Program

Calibrating the Educational Delivery Mode

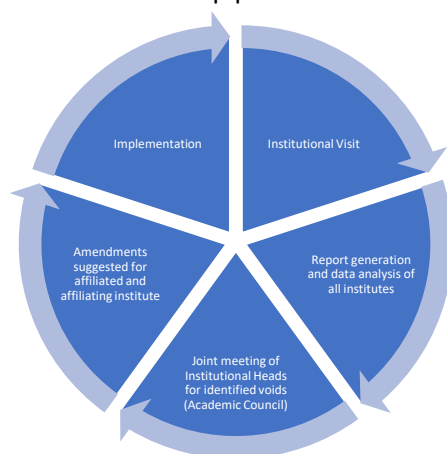

Vice Chancellor UHS has the vision to keep all the educational processes and frameworks of the affiliated institutes at par with the national requirements and global standards. He believes that university's governance of the programs, training of the faculty and standardization of the delivered curricula are the most significant denominators which defines institutional credentials reflected through its yield of learners graduating from our affiliated institutes. With advancing technology and evolving methodologies, cycles of evaluations and re-structuring the program frameworks is the joint onus of the of the University and its affiliated institutes.

UHS wants to ensure that no potential educational void, or administrative glitch remains unidentified which could hamper the pace of achievement of our joint goals.

Affiliate Synergy Program is a reach-out plan which has been devised so as to calibrate professional and educational benchmarks for all its affiliated institutes. An overarching approach and needs analysis from all the institutes will enable potentiating the healthcare parameters and aligning the educational content with the community needs maintaining the institutional diversity.

The current visit by the team is the first in a 05-step process.

Our Heads of Departments from Basic Sciences will visit all the affiliated institutes to :

- Identify any paucity of resources, human / technical / tangible
- Impediments to standardized content delivery
- Alignment of the TOS with the institutional planners
- Alignment of syllabi with university assessments
- Faculty development programs
- Evaluating criteria for internal examiners
- Upkeep of the curricular directives
- Curricular upgrade recommendations

UHS believes in institutional identity based on its diversity and ideology. Respecting all these parameters a uniformity is aimed at and the current program will help calibrate our joint mission for the healthcare academia and healthcare provision.

The program ultimately aims at calibrating the professional competencies of the healthcare professionals trained at UHS for its affiliated institutes and by its affiliated institutes for the community.
